

# *The Breeze*

Don't have much to report this month. Still hoping that some of you will send me some summer happenings so that we might share with our readers. Hope your weather is better than what we are having—rain, rain, rain—and not too warm either. Barb

***4th of July Luncheon***  
***Saturday, July 4, 2015***  
***11:30 AM***  
***Harry's Bar & Grill***

**6747 S. Tamiami Tr.**  
**s.u.s. on Bulletin Board**  
**All Southwinders invited to attend!!**

**Questions -- Bernie Coulter, 927-9816**

**Update on Francile from Bernie Coulter:**

***Francile is now in rehab at Sarasota Memorial Rehab  
5640 Rand Blvd, Room120B  
Sarasota, FL***

***Francile is weak -- the rehab is to get her system built up. She does not know how long  
she will be there.***

***Phone number for the facility is 917-4829***

***DOLLY BURDETTE***

***Dorothy Vasey, Dolly's sister, sent this message via Sharon Currie for the Breeze.***

***Dolly has sold her house and has moved to Montgomery Village.  
Dolly is happy with this plan ...thrilled to live with other people; along with no interest in  
cooking/cleaning...she is ready to leave that. The best part; they have a schedule of  
activities she can enjoy; along with having her own car at her disposal... and the ability to  
come & go in a town she knows well.***

***Her son Glenn lives close by...so it really fills the bill.***

***Dolores Burdette (Dolly)***

***Montgomery Village***

***155 Riddell Road - Room 228***

***Orangeville, ON L9W6R4***

***Phone: 519.938.5804***

***If you are coming into town and cannot contact Dolly:***

***Front Desk: 519.943.5575 will take a message!***

***One Thing***

***About***

***Walking the straight***

***And narrow***

***You never meet anyone you know***

**Please send info to one of these addresses, not the office!!!!**

**COMMUNICATION UPDATE FORMS CAN BE SENT TO [swindsdirectory@gmail.com](mailto:swindsdirectory@gmail.com).**

*Or to*

**COMMUNICATIONS PLAN, 223 SOUTHWINDS DR., SARASOTA, FL 34231**

**FROM THE ENERGY EXPERTS AT FPL**

***Top 5 energy users in your home and recommendations for cutting costs:***

- 1. Air Conditioner, keep you're A/C at 78 degrees when you are home and 82 degrees when you are away. You can save 5% on your cooling costs with every degree you raise your temperature on your thermostat.***
- 2. Pool Pump, To save energy, we recommend limiting your pump's runtime to 6 hours each day in the summer and 4 hours each day in the winter.***
- 3. Water Heater, Reduce heat loss by purchasing a low cost kit to insulate the pipes, and cut water usage by replacing old high-flow showerheads with modern low-flow ones and save up to \$80 per year.***
- 4. Lighting, Use more energy-efficient bulbs like CFLs and LEDs.***
- 5. Clothes Dryer, Refrigerators, or even Televisions, - Look for the Energy Star label to ensure it will be energy efficient.***

After suffering a stroke on May 13<sup>th</sup>, I was fortunate to have excellent medical care and rehabilitation. Also, I was overwhelmed and humbled by the love and support of my Southwinds friends. Whether you visited, sent flowers or cards, gave me rides to appointments, shared meals and desserts, called to chat or included me in your prayers – I thank you from the bottom of my heart. Because of all of you, I am back on my feet and doing well. Jane Magnant
