

THE BREEZE

Sept 2016

Labor Day is a national tribute to the contributions of workers have made to the strength, prosperity and well-being of our country. On June 28, 1894 Congress passed a bill making the first Monday in September a legal holiday.

December 7, 1941 brought the horror of war. How would this industrialized nation survive with the men leaving assembly lines to go to the front lines? Women walked away from home, office and school to "man the factories. All published magazines wrote cover stories encouraging women to participate. And participate they did. So, to all the men and women who have worked tirelessly to make our country great – THANK YOU. We have the best workforce in the world!

Opposition to Siesta Promenade Continues

The extensive development slated for the northwest corner of Stickney Point and US 41 continues to run into challenges. Everyone from residents to merchants to the Department of Transportation is weighing in on the project. Traffic is a major issue and DOT recently cited a 175% increase in crashes at that intersection between 2010 and 2014. They consider it to be a development which would have a substantial effect on the health, safety or welfare of citizens. Stay tuned.

Eye of the Storm focused on Panhandle

Storm 9, not yet relevant enough to earn a name, is heading for the panhandle. In the meantime, we are getting a good amount of rain which will continue through the weekend. Otherwise the weather has been typically hot and humid with afternoon showers.

There is more activity in the Atlantic and we are heading into the busiest of hurricane season. There are four months left. We hope for continued quiet.

Why is the third hand on a watch called the second hand?

Why do slow down and slow up mean the same thing?

How can you lose your life savings on something called securities?

Why is the time of day with the slowest traffic called rush hour?
