NEIGHBORS DRILL BENDERSON ON STICKNEY/TAMIAMI COMPLEX

Four hundred interested and angry neighbors appeared at a meeting held Thursday, August 23 to once more review the development of the property at the northwest corner of Stickney Point Road and Tamiami Trail. Benderson representatives tried to quell fears of traffic problems but the attendees were not convinced. The project has been scaled back but still calls for 140,000 square feet of commercial space, 130 hotel rooms and 414 condominium style dwellings. The Planning Commission will consider the plans on October 4th and the County Commission is slated for a final decision on October 23. Stay tuned.
